

Monthly Campus Updates:

October Campus Update:

The Campus Community,

We want to share some updates with you regarding our work within the Division.

Grants/Awards

The Division of Workforce Development and Continuing Education was awarded a grant in the amount of \$199,785.87 for the new KCC HealthPath program. HealthPath is a healthcare career pathways program developed in response to the **NYS Workforce Development Initiative**, a part of Governor Cuomo's \$175 million initiative, which is allocating funds for targeted workforce investments to address the needs of regional industry and local workforce entities. Please read the announcement below.

In collaboration with Academic Affairs, we will participate and receive a startup award of \$100,000 to launch a micro-pathways, along with hands-on support from the **Education Design Lab**. With support from the Fund, all seven CUNY college campuses will build collaborations between faculty and employers which focus on student growth and skill building at scale. Please read the announcement below.

We are working on two submissions for the **Strengthening Community College Training Grants** from the United States Department of Labor; 1) a proposal through the CUNY Community Colleges Consortium with five campuses focusing on technology, and 2) a campus proposal focusing on Healthcare in collaboration with Academic Affairs. In total, we are seeking funds in the amount of \$2.7 million.

Enrollment/Budget/Funding

Due to the lack of student enrollment and not meeting our revenue this past academic year, our team will continue to work with fewer resources in order to make up the shortfall and sustain our current fiscal outlook.

Online Registration Platform

We are working with CUNY to review a new student registration platform which will be more responsive to the users; improve data visualization tools; and create more useful student and administrative portal for generating reports.

Please continue to stay healthy and safe.
